

G. EDWARD GRIFFIN'S Need To Know

At Last! A Movement Has Been Launched to Stop Mandatory Vaccines

July 6, 2020 – Dr. Pamela Popper

Pam Popper, a well known naturopathic doctor in Ohio, is outraged over mandatory vaccines planned for every person in America before the end of 2020. She is through writing letters and sending petitions to those in power to urge them not to do it. Instead, she has set in motion a well conceived and entirely feasible plan to mobilize the vast majority of citizens who, so far, have stood in passive and fearful silence as their lives are being destroyed. If you are wondering what you will do when they send soldiers to your home to force you and your family to be injected with neurotoxic vaccines, her answer is: Don't wait for that to happen. Become proactive. Start the push back now. Listen to this fifteen minute video and learn the details of her plan. -GEG

**The New Normal:
Citizens In Charge**
Make Americans Free Again

TOGETHER WE CAN MAKE AMERICANS FREE AGAIN

During the contrived COVID-19 debacle, the liberties and freedoms of American have been taken away with breathtaking speed, and are still limited, even in states that claim to be reopening their economies. The size of gatherings is prescribed by the government. Businesses

are expected to limit the amount of time customers can spend in stores. Children are required to wear masks at school, if they can even go to school. People are unable to visit their family members in nursing homes and hospitals; and even to be with them when dying.

In some states, conditions are even worse. Some cities are locked down for the rest of the summer. Restaurants are asked to collect names and phone numbers of patrons in case needed for contact tracing. People have been told that they cannot leave the house without being tested for COVID-19, and centers have been set up to quarantine children away from their families.

We all have seen significant evidence showing that the “end game” is mandatory testing, contact tracing, and vaccines with technology allowing law enforcement to determine who is and is not permitted to leave the house, shop, work, or go to school.

This is like a dystopian nightmare from which we can't wake up. But if we are smart and organized we can make our people free again!
