OnFido creating an Immunity Passport App for ALL people

By Pat Horner, April 16, 2020

I don't want to burst anyone's bubble re our prez but this is very evil!

We all know how wicked/evil the Bill Gates, Kissinger, Soros, Fauci, Birx and all the other NWO people are. And did you also connect the dots that on the day our prez announced the national emergency over the CCP virus that Bill Gates resigned from Microsoft that very day....and went boldly public with global agenda. Then a couple of weeks ago Fauci started *mentioning,* using

his favorite word "we" [meaning the global agenda elitists] are considering a coronavirus immunity phone app" ... for the safety of the people of course! Then our prez "mentioned" that the fed gov was *considering* this app! And after Fauci gave that "shout out" publicly, OnFido [a provider of cloud-based identity verification tools] received an additional $100 million from investors! To me, that seemed to be a "done deal" shout out so the rich could get richer!

OnFido, almost exactly one year ago in 2019, **received $50 million in funding** and part of that was from.....you guessed it....Microsoft i.e. Bill Gates....before the CCP virus!**   This "immunity passport app" is **not voluntary** and not only to track your every move, but you will have to have vaccine to have the immunity that gives you permission to go anywhere or do anything. In other words, total control. Bill Gates also stated recently that "we" have been discussing this with the prez.

And this..... "In **March 2018, Bill Gates had a meeting in the Oval Office with President Donald Trump.** The former Microsoft chief executive, now a prolific philanthropist and the world's second richest man, **was preoccupied with the possibility of a dangerous global pandemic, and urged the President to invest taxpayers' money in preparing for** "unexpected pathogens" like Sars and Mers."

You can draw your own conclusions....but I think they are ALL in it together and we are being sold out big time!
