You can't kill an idea, but ideas can kill you.

What is the deadliest thing mankind has ever encountered in history? Disease, famine, nuclear weapons? Not even close. By sheer body count, it's an idea.

This is the story of the deadliest idea in the world: COMMUNISM.

Communism is a virus. It kills the host, 100% of the time.

This virus has infected our country.

We must fight this virus to survive.

Fight. Now.
