

Dear Idaho Representatives and Senators,

You are being asked to read this information as it is the path our country will be taking if Biden assumes the office of president. Whether you are Republican or Democrat does not matter, this is an issue of forever losing the foundation of how our Republic was instituted with self-governance by the people, and you being elected to represent the people. Please, do your own research with the links provided.

The World Economic Forum (WEF) has created the Great Reset which is a plan to use 5G as a way in which to change the world and end capitalism. All activities of life will be affected by this plan. As you know the foundations on which we live have already been impacted and taken from us, how we work, how our children are educated, the crushing of small businesses, our ability to worship, and now the very way in which we vote has been horrifically compromised. In fact, many activities such as work, education, and even healthcare have already been moved online, which is part of what the Great Reset is about. It is the intent of the WEF and its global

corporate partners to never allow a return to our once normal life before this pandemic.

The links explaining this are below. With a Biden presidency this will be implemented and it is only you as representatives that can stop it in Idaho. All control of our lives will be assumed by global corporate leaders through 5G, from resource use, our work, how we educate, and how we conduct our lives. We cannot let this happen. Individuals who are experts on this subject have been attempting to alert us to the devastating effects this will have in the United States and across the world.

Perhaps some of you may hold a belief in these changes. Ending capitalism, and changing our lives to a sustainable world will remove all of our freedom and liberty. It is an oxymoron, one cannot exist with the other. I know those who are in various regional entities have been educated in this thought. But to continue to support this is only moving further away from our Constitutional rights. Every link provided is either from the WEF website or other legitimate sources.

This will be shared with Idahoans, so they understand that you have been provided the information that presents a threat to us and our state. Hopefully, you understand Idahoans will be watching to see how much you participate in this agenda. If the question is, "What can we do about it?", the answer is, stand up to the federal government, do not allow these intrusive changes in our education system, our freedom to conduct businesses, prohibiting us from worshipping, forced medical care through a computer monitor, collection of private medical information that is shared, and no forced medical treatments such as vaccines. These are only a few areas of concern.

Our system of governance, work, education, worship, shopping, socializing, travel, even voting has already been successfully disrupted by this agenda. It is the intent of the WEF and its global corporate partners to never allow a return to our life of freedom, participation in a Constitutional Republic, or a nation ruled by laws.

Here is the World Economic Forum (WEF) Great [Reset](#) and the intent to [implement](#) it now. Under platforms you can read about all of the plans to change the world.

This **podcast** explains Covid-19: The Great Reset.

Here are WEF [partners](#) in the Great Reset, Micron and HP are included along with Moderna and Pfizer who came out with the vaccines, Facebook, Walmart, and Google.

WEF calls the advent of 5G as the **Fourth Industrial Revolution (4IR)**, giving the corporate world the ability to gather, share, monitor, surveil, and utilize data in order to control resources, and society. As this article itself states "Simultaneously, governments will gain new technological powers to increase their control over populations, based on pervasive surveillance systems and the ability to control digital infrastructure". The federal government is pouring millions of dollars into 5G.

5G gives the ability to not only for surveillance but to create the **Internet of Things (IoT)** which will tie all devices together with the ability to gather and share data.

With **4IR**, Artificial Intelligence ([AI](#)) and algorithms will be used to make decisions about every aspect of life. A future of Technological [Governance](#), not governance as a Republic, but "maximizing [data](#) use to benefit society". This will all be managed by global corporations.

WEF created a **Strategic Intelligence platform** to execute the Great Reset, all participating countries, issues, and sustainable development goals are listed here.

The WEF Great Reset is about **destroying capitalism**, or what they call "[reinventing](#)" it, and **creating a new economy**. **The primary goal has always been about changing and controlling the economy.**

As this Klaus Schwab [article](#) explains the objective is "**state capitalism**," which entrusts the government with setting the direction of the economy", and "positions private **corporations as trustees of society**", which is also known as corporatism, the very antithesis of free market capitalism.

The **World Business Council for Sustainable Development** is prepared to reinvent capitalism as well and have had a Vision 2050 [plan](#) since 2010.

According to the WEF, the world will operate under a **digital economy**. The **Federal Reserve** is preparing to [support](#) this digital economy, and [researching](#) it, which will give the government

and corporations the ability to track everything we do. The plan is changing our monetary system over to a digital currency and economy that will shape the future of our [society](#).

Schwab is using Covid-19 as a means to [implement](#) his Great Reset, but it was always planned that way.

To learn about the direction we will be taken, and prepare for it, here is Schwab's plan for the **Post Covid World**. In this [book](#) Schwab specifically states, "Many of us are pondering when things will return to normal. The short response is: never. Nothing will ever return to the 'broken' sense of normalcy that prevailed prior to the crisis because the coronavirus pandemic marks a fundamental inflection point in our global trajectory." Challenges and Opportunities Post Covid-19 are also [outlined](#) by the WEF, and Reset and [Recovery](#).

With the **end of US [dominance](#)**, we will instead have global powers.

Here is a summary of all the [areas](#) impacted by the Great Reset.

WEF and Schwab talking on [video](#) about the Great Reset, start at the 3:25" mark.

The WEF and UN signed a Strategic Partner [Framework](#) to finance and implement Agenda [2030](#) sustainable development goals

Preparations are being made for the next crisis, [cybersecurity](#). With federal agencies already being active participants in this endeavor, the [goal](#) is creating an "Alliance to Combat Global Cybercrime that will include law enforcement agencies.

The intent is to take the unemployed, retraining, and recreating a new [workforce](#) for this agenda, again for the post Covid [world](#). "[Upskilling](#)" is the word being used to reskill workers who have been unemployed from the pandemic for corporate needs. Work and education has already been changed to online and the intention is for this to continue.

It is the same for **healthcare**, use of telemedicine for evaluating and treating patients, all online, and as this video suggests, large corporations are ready to take over. With electronic health records and [digital](#) care they will have full access to data on us, perfect for their value based ideology, using algorithms that will force healthcare providers to follow.

Agriculture will be managed by AI to control the food [systems](#) that is intended to feed the world. Global corporate partners such as Monsanto will be making these decisions with "human [capital](#)", prepared through its changes in education to a corporate workforce, doing the work.

Our **energy [sector](#)** will be changed to renewables. The federal government is already pouring

millions of dollars into renewables.

Cities will also be changed and how we [live](#).

Through its WEF Water Environment [Federation](#), how we use water will be forever changed. In Idaho the **Pacific Northwest Clean Water Association** is a member. **Suez** in Boise is also a WEF [participant](#), perhaps this answers why Suez needs such high rate [increases](#).

Even the [media](#) will be used to shape what it wants us to know. With Facebook, Google, New York Times, Discovery, Time, and Netflix as partners this will be easy to do. Without specifically naming it, [Time](#) is already promoting the Great Reset. It's as if the magazine had inside knowledge of the future.

This will be our new technocratic world, groups of individuals from different spheres of society that will be making the decisions as unelected participants. There will no longer be a need for a representative government.

Trudeau in Canada has joined the agenda.

The WGA is bringing this agenda to us through their **Reimagining the Rural West Initiative**, reimagine is one of the WEF words for the reset.

[Biden](#) is set to participate in and implement the Great [Reset](#).

Biden has appointed **John Kerry** as Special Presidential Envoy for Climate. He supports the Great [Reset](#).

John Corbett [report](#) on the Great Reset. The above links substantiates what is in this report.

The above are only a few examples of what the WEF Great Reset will execute upon us. It is your job to protect Idahoans from this agenda. Don't accept any federal dollars that have these objectives attached. Also, put constraints on Governor Little that restricts him to working with the legislature on accepting federal dollars, how money is spent, and listening to the legislature as the voice of the people. Only you, the legislators, have that authority. It is time legislators exit regional entities and Governor Little leaves the WGA, focusing instead on the will of Idahoans to retain their sovereignty and authority.
