

Patriot News for June 2020!

Despite the hopes and prayers of many of us that May would bring relief from the stresses that 2020 has brought upon the world, we ended May with new challenges and downright horrifying events that seem to be converging to make 2020 an unforgettably horrific year in the United States.

Ed and I planned for this edition to examine the issue of overreach by various governors, mayors, and governmental agencies that have taken place in the past few months. While we have been researching and writing the sands shifted yet again and we now have seemingly uncontrollable violence and destruction breaking out across the country. It seems that the overreach by state authorities may actually become surpassed by necessary action by the federal government to regain control of cities that are being terrorized by mayhem.

Despite their haste to impose draconian measures against law-abiding citizens under the guise of public health, the state-level authorities are not nearly so reactively authoritarian against thugs who are destroying both public and private properties and attacking innocent people. Why the double standard? Are they simply cowards or are they being driven by the liberal puppet-masters who are desperate to foment a level of divisiveness and unrest in the U.S. that will drive President Trump out of office?

Earlier this year I posited that the Chinese took full advantage of either accidental or deliberate release of the coronavirus from the Wuhan lab by sacrificing their own citizens in an effort to successfully spread the virus around the world. In my opinion, the liberal progressive anti-Trump faction of the Democratic party is happy to sacrifice whole cities that are under Democratic control and the Americans who live in those cities in their effort to regain control of the White House and the Senate. So how are they any different than the Chinese Communist Party? Americans really need to think about that.

By the time you read this, the primary election will be behind us. It is time to start working to do everything possible to assure that in November freedom-loving, Constitution-defending, patriotic Americans are put in office at all levels from cities to counties to states and nationally. Our future depends on it!
